CCCE

CYDENIUM CERTIFIED CYBERSECURITY EXPERT

CYDENIUM ACADEMY

Module 1 : Introduction to Ethical Hacking

- Introduction to Cyber Security
- What is Ethical Hacking
- Types of Hackers
- Phases of Ethical Hacking
- How to Become Ethical Hacker
- Skill Required to Become Ethical Hacking
- Why Ethical Hacking is Necessary
- Domains in Cyber Security
- How to Get Job in Cyber Security
- Different Types of Certificate

Module 2 : Linux Fundamentals

- Introduction to Linux
- Virtualization
- Kali Linux Setup
- User, Groups, Shadow, Passwd etc
- Getting Familiar with Linux
- Hacker Command Prompt
- Important Kali Linux Commands
- Linux Operating System
- Metasploitable Setup

Module 3 : Anonymity

- What is Tor & its working
- Installing Tor Browser in Kali Linux
- Installing & Configuring Tor in Kali Linux
- What is Proxy

- How Proxy Work
- Different Types of Proxy
- How to Setup Proxy Server
- Proxy Chaining
- Onion Routing
- How Using Dark Web on Tor Network
- Becoming Anonymous on Internet

Module 4 : Networking

- Introduction to Networking
- Types of Networks
- Network Topologies and Protocols
- TCP/IP Fundamentals
- DNS and DHCP Basics
- HTTP/HTTPS, FTP, SSH, SMTP
- Subnetting and IP Addressing
- Routing and Switching Basics
- Network Security Fundamentals

Module 5 : Footprinting and Reconnaissance

- Introduction to Footprinting
- Types of Footprinting
- What is Active & Passive Footprinting
- Website reconnaissance
- Who is reconnaissance
- What is Wappalyzer
- Google Dorks & Google Hacking Database
- Pentest-Tools & NSLookup
- Call Spoofing & Email Tracking
- Shodan, Maltego, Recon-ng

Module 6 : Scanning Techniques

- What is Scanning
- How Network Scanning Works
- Port Scanning
- Important Ports
- Version Scanning
- OS Fingerprinting
- Nmap Installation & Basic Usage
- Open Ports & Services Detection
- Nmap Scripting Engine (NSE)
- Finding Exploits (searchsploit / metasploit)
- Using Zenmap

Module 7 : Enumeration or Gaining Access

- Introduction to Enumeration
- Techniques for Enumeration
- Understanding Windows Architecture
- Windows Security Elements
- SIDs, RIDs, SRM, SAM Database
- NetBIOS Enumeration
- nbtstat & NetBIOS Enumerator (Windows)
- nbtscan in Kali Linux
- Understanding Security Identifiers (SID & RID)
- DNS Enumeration
- NTP Enumeration
- LDAP Enumeration
- Services & Ports Enumeration
- Enumeration Countermeasures

Module 8 : Vulnerability Analysis

- Introduction to Vulnerability Analysis
- Identify Vulnerability Risk Background
- Types of Vulnerability Assessment
- Vulnerability Scoring System
- Common Vulnerability Scoring Systems
- Common Vulnerabilities and Exposure
- OWASP
- National Vulnerability Database

Module 9 : System Hacking & Password Cracking

- Introduction to System Hacking
- Introduction to Password Cracking
- Password Guessing & Complexity
- Hashing & Hash Identifier
- Types of Password Cracking
- Dictionary & Brute-Force Attack
- Hybrid & Rainbow Table Concepts
- Cracking Passwords using Tools (John the Ripper)
- Windows Password Recovery Concepts
- Introduction to Keylogger
- Man-in-the-Middle Attack
- Introduction to Encryption
- Symmetric & Asymmetric Encryption
- How Hacker Hack Window Using RAT
- How Hacker Hack Computer Using Image
- How Hacker Hack Computer Using Videos
- How Hacker Hack Computer Using Mp3

Module 10 : Malware Threats

- Introduction to Malware Threats
- How to Create own Malware
- How to Create own Trojan Horse
- How to Create Backdoor
- How to Create own Ransomware
- How to Create own Adware
- How to make own Virus
- How to Create own Spyware
- How to Create own Botnet
- How to Create own Crypter
- Antivirus Sensor System
- Malware Detection
- Malware Reverse Engineering

Module 11 : Sniffing & Spoofing

- Introduction to Sniffing
- Types of Sniffing
- Network Sniffing Threats
- How a Sniffer Works
- Password Sniffing
- Sniffing with Wireshark
- Using Ettercap for Network Analysis (HTTP)
- Using Bettercap for Secure Traffic Analysis (HTTPS)
- ARP Spoofing Concepts
- DNS Spoofing Concepts
- Capturing Network Traffic (PC & Smartphone)
- MAC Spoofing Concepts

MODULE 12 : SOCIAL ENGINEERING

- Introduction to Social Engineering
- Phases of Social Engineering
- Human-Based Social Engineering
- Computer-Based Social Engineering
- Mobile-Based Social Engineering
- Social Engineering Techniques
- Clickbait & Trend-Based Social Engineering
- Impersonation on Social Networks
- Identity Theft Awareness
- Email Spoofing Awareness
- Understanding Malicious Links
- Introduction to Phishing
- Advance Phishing Techniques
- How Hacker Hack Instagram, Facebook ect

MODULE 13 : DOS/DDOS ATTACKS

- Introduction to DOS/DDOS [Denial of Services]
- DOS Attack Types
- Smurf & Fraggle DOS Attack
- SYN Flood & Ping Of Death DOS Attack
- DDOS Attacks using Zombie
- Introduction to Botnets
- How Setup Botnets
- DOS using Goldeneye
- Slowloris DOS/DDOS Attack
- Effect of Dos Attack
- DOS Attack Penetration Testing

MODULE 14 : SESSION HIJACKING

- Introduction to Session Hijacking
- HTTP Cookies
- Why Session Hijacking is Successful
- How Hacker Hijack Facebook Session
- How Hacker Hijack Instagram Session
- Session Hijacking
- Spoofing vs. Hijacking
- Compromising Session IDs
- TCP/IP Hijacking
- Source Routing
- RST Hijacking
- Blind Hijacking
- Forged ICMP and ARP Spoofing
- UDP Hijacking
- Session Hijacking Countermeasures

MODULE 15 : INTRUSION DECTECTION SYSTEM

- Introduction to IDS
- Firewall
- Honeypot
- Intrusion Detection Tools
- IP Address Spoofing
- Evading Firewalls
- Bypassing through SSH Tunneling Method
- Bypassing Firewall through External Systems
- Setup Honeypot in Your Network
- IDS, Firewall and Honeypot System

Module 16 : Hacking Web Servers

- Introduction to Web Servers
- Web server Concepts
- Web Server Security Issue
- Open Source Web server Architecture
- Web Server Architecture
- Website Defacement
- Web server Misconfiguration
- HTTP Response Splitting Attack
- Web Cache Poisoning Attack
- SSH Brute-force & Web Application Attacks
- Compromise Server

Module 17 : Hacking Web Applications

- Introduction to Web Applications
- Server Administrator
- Web App Threats
- Web App Hacking Methodology
- Analyze Web Applications Attack
- Authentication Mechanism Authorization Attack
- Perform Injection Attacks
- Attack Data Connectivity
- Schemes Session Management Attack

Module 18 : SQL Injection

- Introduction to SQL Injection
- How SQL Query Works
- How to Create SQL Database

- SQL Injection Identification
- Authentication Bypass (Login Panel)
- SQL Injection Vulnerability Detection
- Blind SQL Injection
- SQLMAP Usage
- Cross-Site Scripting (XSS)
- Stored & Reflected XSS
- CSRF Awareness
- Command Injection
- SQL Parameter Protection (Prevention)
- DVWA for Practice (SQL Injection Lab)

MODULE 19 : WIRELESS HACKING (WIFI)

- Introduction to Wireless Hacking
- Understanding Wireless Networks
- Wi-fi Protected Setup
- Setting Wireless Pentesting
- Wireless Adapter
- How Hacker Hack WIFI Passwords
- How Hacker Make own WIFI Jammer
- Jamming Signal Attack
- GPS Mapping
- Bluetooth Hacking

MODULE 20 : ANDROID HACKING

- Hack Android Phone Using RAT with Port Forwarding
- Hack Android Phone Using Metasploit Payload
- How to bypass Play Protect
- OWASP Top 10 Mobile Threats

MODULE 21 : IOT HACKING

- Introduction to loT Hacking
- Understanding IoT Attacks
- OWASP Top 10 IoT Vulnerabilities
- Rolling code attack
- BlueBorne Attack
- Jamming Attack
- How Hacker Hack Car Remote Signal
- How Hacker Hack CCTV
- Device-to-Device & Cloud Model
- Device-to-Gateway Model
- Back-End Data-Sharing Model

MODULE 22 : CLOUD COMPUTING

- Introduction to Cloud computing
- Deployment Models
- Service Models
- Infrastructure-as-a-Service (laaS)
- Platform-as-a-Service (PaaS)
- Software-as-a-Service (SaaS)
- Types of Cloud Computing Services
- Cloud Computing Threats

MODULE 23 : CRYPTOGRAPHY

- Introduction to Cryptography
- Type of Cryptography
- Public & Private Key
- Government Access to Keys

- Symmetric & Asymmetrical Encryption
- Crypto analysis
- PGP & GPG
- Gnu Privacy Guard
- Encryption Algorithms
- Data Encryption Standard (DES)
- RC4, RC5, RSA, RC6 Algorithms
- Email Encryption
- Digital Signature
- Live Cracking Code
- How Steganography Works
- Types of Steganography
- Hide message Manual way
- Email Steganography
- Hide Massage in Image
- Folder Steganography
- Audio Steganography

MODULE 24 : BUG BOUNTY

- Introduction to Bug Bounty
- Setting Up Lab For Bug Bounty
- Using Hackerone, Bugcrowd & Open bugbounty
- Setting Up Burp Suite for Bug Bounty
- Responsible Disclosure Policies & Procedures
- Subdomain Takeover
- Directory Bruteforcing
- Recon Techniques
- Github Recon Techniques
- WordPress Hunting
- Bug Bounty Programs and Rewards

Module 25 : Location Tracking

- IP Logger, Canarytoken & Grabify
- IMEI & Device Identification Basics
- GPS Tracking Concepts
- Understanding Call Detail Records (CDR)
- Cell Tower Triangulation

Module 26 : OSINT (Open Source Intelligence)

- Introduction to OSINT
- Types of Open Source Intelligence
- IP, Domain & DNS Investigation
- QR & UPI Code Investigation
- Image Investigation
- Mobile Number Investigation
- Vehicle Investigation
- Social Media Accounts Investigation
- Geolocation & Map-based OSINT
- OSINT Reporting & Documentation

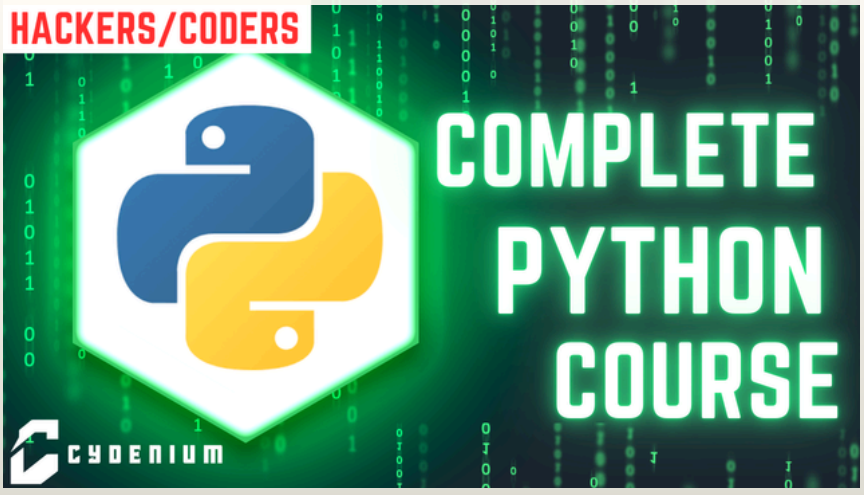

Module 27 : Dark Web

- Introduction to Deep Web & Dark Web
- Important terms of Dark & Deep web
- How to Access Dark Web
- Finding Accessing Dark web Websites
- Dark Web Investigation
- How Hacker Host own Website on Dark Web
- Cyber Crimes on Dark Web
- Dark Web Threat Intelligence

TRAINING DETAILS

- 4 MONTHS LIVE CLASSES WITH RECORDING
- 1 MONTH LIVE INTERNSHIP OPPORTUNITY
- ISO-CERTIFIED HARD COPY CERTIFICATE
- 180+ PREMIUM HACKING SOFTWARE & TOOLS
- 24x7 NEEV AI & CHAT/CALL SUPPORT
- STUDY MATERIALS (BOOKS & NOTES)
- WEEKEND LIVE PRACTICE TESTS
- MINI PROJECTS FOR HANDS-ON EXPERIENCE
- 100% PRACTICAL TRAINING IN EVERY MODULE
- INTERNSHIP & PLACEMENT SUPPORT
- CAREER GUIDANCE BY INDUSTRY EXPERTS
- RESUME BUILDING & LINKEDIN PROFILE SETUP
- LIFETIME COURSE, SOFTWARE & SUPPORT ACCESS
- LIFETIME UPDATES (SOFTWARES, VIDEOS & MODULES)

FREE ACCESS

COMPLETE ADVANCED PYTHON COURSE WITH AI

CYDENIUM ADVANCE TOOLS HUB

COMPANY CERTIFICATE

INTERNATIONAL STANDARD ORGANIZATION (ISO)

सत्यमेव जयते

MICRO, SMALL & MEDIUM ENTERPRISES
सूक्ष्म, लघु एवं मध्यम उद्यम

TRAINING CERTIFICATE

HARD COPY CERTIFICATE DELIVERED TO YOUR DOORSTEP
